

XF-450Pro A2 All in One DTF Printer

10 m²/h
Max Printing Speed

Product Application

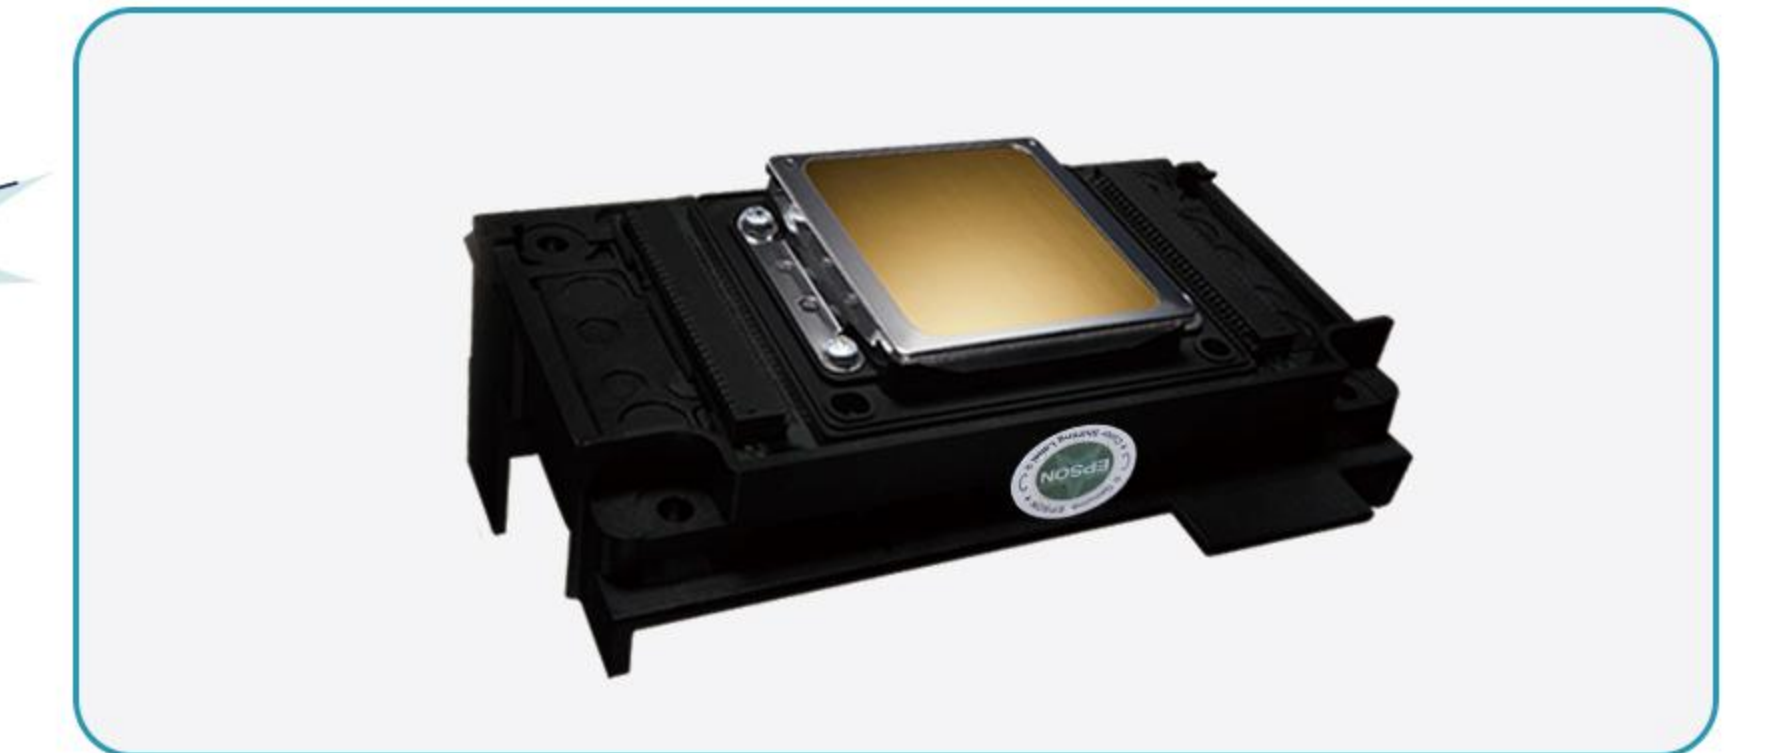

Wide applications in Apply to nylon, chemical fiber, cotton, leather, diving suit, PVC, EVA, etc.

Product Features

I1600 Printer Head

XP600 Printer Head

- **Print Speed:** The I1600 print head may have a higher printing speed. This is crucial for applications that require faster production.
- **Print Quality:** The I1600 print head may provide higher resolution and superior print quality, making it suitable for applications with high demands on print quality.
- **Lifespan:** The I1600 print head may have a longer lifespan, meaning that under the same usage conditions, it may provide more printing cycles and reduce the frequency of print head replacements.
- **Multicolor Ink Configuration:** The I1600 may support a broader range of ink color configurations, providing a wider color spectrum and finer color accuracy.
- **Applicability:** The I1600 print head may be designed for specific types of applications, such as DTF printing, making it more suitable for particular fields.
